

**REMARKS**

This paper supplements the submission filed with the Request for Continued Examination ("RCE") on March 14, 2005. Accordingly, the remarks and amendments of the submission are incorporated by reference herein.

In the Office communication, the submission accompanying the RCE was not fully responsive to the Final Action because paragraphs 0021.2 through 0021.6 allegedly contained new matter.

In paragraph 0021.2, the hand attachment portion, which is smaller than the front portion and covers a substantial portion of the user's hand, was deemed new matter. However, as stated in the Advisory Action (10/27/03), this matter is supported by Figures 1 through 3 in the original application. Thus, it is respectfully submitted that paragraph 0021.2 does not introduce new matter.

Also, by this Amendment, paragraphs 0021.3 through 0021.6 have been deleted without prejudice for possible consideration in a continuation application.

In view of the foregoing, the Applicant has provided a full and complete response to the Final Action. Allowance of the claims and passage of the application are respectfully solicited.

Respectfully Submitted,

\_\_\_\_\_
